RE: Case No. 2003-00360

Attached are four more pages containing 25 signatures on a petition to obtain consensus before cutting Doe Valley off from PSC protection. There are many other property owners who would have signed it had they been available at the time.

I am greatly concerned about a phone call I received this morning from a local builder who had signed the petition last week. He stated that Joe Nepi, Vice President of the utility company and husband of the general manager, called and berated him for having signed it. The builder was considerably upset and felt that his livelihood was being threatened. Since the general manager controls all information disseminated to the community, and her political allies control the architectural committee, the builder has good reason to be concerned. A local developer who had signed the petition was also contacted by Mr. Nepi, and is now considering distribution of a written disclaimer. Any property owner could be made uncomfortable by such an invasion of privacy, but business owners are particularly vulnerable to this type of intimidation, and Mr. Nepi knows it.

I have personally received phone calls from friends of Mr. Nepi accusing me of sabotaging the utility board's efforts. They tell me that my efforts will force Doe Valley to buy water from Meade County in January. The conflict is tearing our community apart. While I realize that there is nothing you can do about our turmoil, we must find a way to get the truth out to the people. I sincerely hope that you will not expose us to a potentially dangerous situation by removing our community from PSC control and placing it under the utility board which Mr. Nepi controls.

Sincerely,

Lois Conn

**Petition Regarding Control of Doe Valley Water Rates By The
Public Service Commission**

We, the undersigned, respectfully petition the PSC and the Doe Valley POA (Property Owners Association) Board of Directors the opportunity to seek community consensus regarding whether or not the Doe Valley Utilities Company (DVUC) should be under the watchful eyes of the Public Service Commission (PSC). The only surveys taken thus far have confirmed that the majority wish to keep Doe Valley lake as our raw water source, but the prospect of making us a private utility was never even addressed (DVUC has taken action to sever its relationship with the PSC). Many remain unaware that such a move would give the utility company unfettered control, and deprive us all of PSC rate protection.

We are not requesting a formal intervention, we are simply asking the POA Board to address this vital issue before committing us to a potentially hazardous course of action. We respectfully request that the Board of Directors hold a special meeting before November 13th to determine whether conducting a survey is a reasonable request.
